

SHIVANANDHINI K

Aspiring Web Developer

Phone: 9360200271

Email: kshivanandhini1313@gmail.com

LinkedIn: www.linkedin.com/in/shivanandhini-k

GitHub: <https://github.com/Shivanandhinik>

OBJECTIVE:

Aspiring Web Developer with a strong foundation in Computer Science and hands-on experience in web development and database management. Seeking an opportunity to contribute to innovative projects while enhancing technical and problem-solving skills.

EDUCATIONAL QUALIFICATION:

Kingston Engineering College B.E (CSE)	2020 - 2024
CGPA - 8.72%	
Vaani Matric Hr. Sec. School HSC	2020
Percentage - 73%	
Seventh Day Adventist Matric. Hr. Sec. School SSLC	2018
Percentage - 88.9%	

SKILLS:

- **Programming Languages:** Java, C, Python, JavaScript
- **Web Technologies:** Frontend Development (HTML, CSS, JavaScript)
- **Database:** Oracle
- **Tools / IDE:** Visual Studio Code
- **Concepts:** Basic Frontend Development, Programming Fundamentals

WORK EXPERIENCE:

BHEL (Bharat Heavy Electricals Limited), Ranipet

Graduate Trainee – HR (Industrial Relations Department)

(Jun 2025 – Present)

- Supported **industrial relations operations**, employee engagement initiatives, and HR activities.
- Maintained and organized **employee records, compliance documents, and HR reports**
- Gained practical exposure to **labor laws, grievance handling, and organizational policies**

Technical Contributions:

Industrial Relations & HRDC Web Portal + SBF Management System

Technologies: JSP, CSS, JavaScript, Java, Oracle Database

- Designed and developed web-based applications for Industrial Relations and Human Resource Development Centre Portal to streamline internal operations
- Built a centralized system to manage multi-year employee records and union-wise data efficiently
- Developed an interactive HRDC portal with features like event scheduling, meeting calendar, and media gallery
- Implemented an SBF Management System to handle multiple employee records and fund claim processing
- Enabled CRUD operations (Create, Read, Update, Delete) for accurate and efficient data management
- Improved data accessibility and reduced manual paperwork through digital transformation
- Ensured structured data storage and secure handling using Oracle Database

PROJECTS:

- **A Novel Secure Patient E-Health Care Database Storage System Using Cloud – May 2024**
The novel secure patient e-healthcare database storage system using cloud computing aims to address the challenges of security, confidentiality, and trust issues in the healthcare industry.
- **Towards detection and attribution of cyber-attacks in cyber physical systems – Dec 2023**
To detect cyber-attacks on files and intimate the data owner. A two-level assault recognition and attribution document framework intended for CPS and all the more explicitly in a modern control framework. This can give expanded perspective on all framework levels with regards to somewhere safe and secure affirmation.
- **Global sales data analytics – July 2023**
To collect and use sales data to identify, optimize, and forecast sales.

INTERNSHIPS:

CODSOFT — Java Programming Intern | Oct 2023 (1 Month)

- Developed Java-based applications and strengthened programming skills
- Improved understanding of object-oriented programming concepts

Barola Technology — Machine Learning Intern | Jan 2023 (15 Days)

- Learned fundamentals of machine learning and data processing
- Worked on basic model concepts and implementation

CERTIFICATIONS:

- Big Data Using Hadoop – Veranda Learning
- Network Engineering – Cisco Networking Academy
- Data Analysis with Python – FreeCodeCamp
